

Product Specification Sheet

Mid-America Standard Vinyl Shutters Style MJ Master Joined Board and Batten Shutters

This guide is intended to help answer any questions about specific dimensions of the standard vinyl shutters you will receive. Please note that the vinyl shutter manufacturing process is not exact. All sizes are nominal and may vary slightly from one shutter color to the next.

If you are installing your exterior vinyl shutters in a cavity or next to an obstruction and you require an exact shutter width, we recommend that you contact us for an exact width measurement before ordering vinyl window shutters, as sometimes the actual standard shutter width is slightly wider than what is specified.

Vertical Board Width: 3 1/2"

Cross-Batten Height: 3 1/2"

Shutter Depth (Thickness):

- 1 3/4" at the Cross Battens
- 7/8" at the Vertical Boards

Shutter Width: 14"

Available Heights:

- 31", 35", 39", 43", 47", 51", 55", 59", 63", 67", 71", 75", and 80"

Board and batten shutters that are less than 55" in height will only have 2 cross battens. Board & batten shutters that are over 55" in height will be constructed with 3 cross battens.
