

Product Specification Sheet

Mid-America Vinyl Exterior Shutters Style J3 Joined Board and Batten Shutters

This guide is intended to help answer any questions about specific dimensions of the decorative exterior shutters you will receive. Please note that the plastic shutter manufacturing process is not exact. All sizes are nominal and may vary slightly from one shutter color to the next.

If you are installing your outdoor vinyl shutters in a cavity or next to an obstruction and you require an exact shutter width, we recommend that you call us for an exact width measurement before ordering the custom window shutters, as sometimes the actual width is slightly wider than what is specified.

Vertical Board Width: 3 ½"

Cross-Batten Height: 3 ½"

Shutter Depth (Thickness):

- 1 ¾" at the Cross Battens
- 7/8" between the Cross Battens

Shutter Width: 10 ½"

Available Heights:

- From 18" to 144" in ¼" increments

Board and batten shutters that are less than 55" in height will only have 2 cross battens. Board & batten shutters that are over 55" in height will be constructed with 3 cross battens.
