Mid-America Custom Vinyl Shutters Style L1 Louver Shutters

This guide is intended to help answer any questions about specific dimensions of the exterior vinyl shutters you will receive. Please note that the custom vinyl shutter manufacturing process is not exact. All sizes are nominal and may vary slightly from one shutter color to the next.

If you are installing your vinyl shutters in a cavity or next to an obstruction and require an exact shutter width, we recommend that you call us for an exact width measurement before ordering custom shutters, as sometimes the actual shutter width is slightly wider than what is specified.
