

## Product Specification Sheet

### Mid-America Shutters Style S5 Custom Spaced Board & Batten Shutters

This guide is intended to help answer any questions about specific dimensions of the board and batten shutters you will receive. Please note that the vinyl exterior shutter manufacturing process is not exact. All sizes are nominal and may vary slightly from one shutter color to the next.

If you are installing your outside shutters in a cavity or next to an obstruction and you require an exact shutter width, we recommend that you call us for an exact width measurement before ordering the custom outdoor shutters, as sometimes the actual window shutter width is slightly wider than what is specified.

**Vertical Board Width: 3 ½"**

**Cross-Batten Height: 3 ½"**

**Space Between Vertical Boards: ¾"**

**Shutter Depth (Thickness):**

- 1 ¾" at the Cross Battens
- 7/8" between the Cross Battens

**Shutter Width: 20 ½"**

**Available Heights:**

- From 18" to 144" in ¼" increments

**Board and batten shutters that are less than 55" in height will only have 2 cross battens. Board & batten shutters that are over 55" in height will be constructed with 3 cross battens.**
